

# SONG OF US

A SONGWRITING WORKSHOP FOR YOUTH  
**VIRTUAL EVENT: 10:30 AM - 12:30 PM**

## **SONG OF US "Together From A Distance"**

### **VERSE 1**

Like branches in the wind, we fall  
We are walking in the rain but stand tall  
We are vulnerable and breakable  
Though in the end we can't be stopped

### **CHORUS**

Together from a distance, even though we are apart  
Together, we are souls united to share love and make one heart  
Together from a distance, we all can find a way  
Of helping out each other, work for a better day  
We can see you  
We can hear you

### **VERSE 2**

We may be apart but you'll always be in my heart  
We're stars of the earth, so we'll never be in the dark  
Our love's so bright we shine

### **CHORUS**

Together from a distance, even though we are apart  
Together, we are souls united to share love and make one heart  
Together from a distance, we all can find a way  
Of helping out each other, work for a better day

### **BRIDGE**

Will we ever go back?  
Will this be a new start?  
Or is this just the end?

The world is still out there  
Just depends on how you look

We are stronger together  
Together from a distance!

**CHORUS**

Together from a distance, even though we are apart  
Together, we are souls united to share love and make one heart

Together from a distance, we all can find a way  
Of helping out each other, work for a better day

We can see you

We can hear you

We can see you

We can hear you
